Experiences with the Club

Although this framework does not *specify* requirements beyond those outlined above, completion of those essentials does not in itself constitute grounds for Ascension. During one's time with the Outing Club, said person has presumably **done** something! It is therefore requested that the Heeler (in conjunction with his or her Mentor) assembles and presents a **Summary, Overview, Timeline, or Portfolio** of his or her experiences. In particular, this submission should make clear what the Heeler brings to the Club.

To the Heeler: Take advantage of the flexibility inherent to this framework and explore your interests. Be a specialist. Be a generalist! Be anything you want, but have fun getting there, and learn something about yourself!
